Automotive - 24V Air Conditioners

Sleeping Well Back

Sleeping Well is the world's first truck air conditioner that works even when the engine is not running, significantly reducing energy consumption.

Sleeping Well Back is wall mounted and provides maximum cooling in the sleeping area of the cabin. The evaporator unit can be installed on the rear wall of the vehicle and the connection pipes are adjustable in length.

In some cases, installation does not require drilling into the cabin. The external control unit is water-proof. Sleeping Well Back is almost aesthetically invisible, as the condensing unit is placed on the back of the cabin.

Technical features

Compressor	Single Secop BD350GH	Voltage (V)	DC 24
Refrigerant gas	-	Cooling power (W)	650 - 950
24V consumption car (amp/h)	7,5	24V consumption max (amp/h)	14,5
External unit dimensions (HxWxD) (mm)	702x466x187	Evaporating unit dimensions (HxWxD) (mm)	259x631x113
Net weight (kg)	22,3	Number of fans	4
Air flow (m3/h)	450	Remote control	Yes
Timer	Yes	Battery protection	Yes
Certifications	CE, E-mark
